PROJECTS

1. Blog Site [HTML, CSS, Django]

[Code](#)

- A personal project for learning purposes.
- Deployed the project at pythonanywhere.com

2. Community Project [HTML, CSS, JS, Django]

[Code](#)

- The project is in progress and is not live yet.
- Developed this with my friends to list the clubs of our college in it, so that freshers can know more about those clubs, and can apply to be a part of them from the platform itself.
- We also build it with a vision that other students can start their open-source contribution through this beginner friendly project, and incorporate features into it that might help the community in future.

SKILLS

1. Python, Django
2. Java
3. C
4. HTML, CSS
5. Blogging, Documentation, Technical Writing
